Mothers of 2 Girls Who Died After Gardasil HPV Vaccine Sue Merck

The mothers of 10-year-old Isabella Zuggi and 14-year-old Sydney Figueroa filed wrongful death lawsuits against Merck, alleging the company knowingly failed to warn the public and medical providers about the risk of injury or death from its Gardasil human papillomavirus vaccine.

Miss a day, miss a lot. *Subscribe to The Defender's Top News of the Day.* ***It's free.***

The mothers of two girls who died after receiving the Gardasil human papillomavirus (HPV) vaccine are suing Merck.

Lawyers from Wisner Baum on Feb. 16 filed two new wrongful death lawsuits on behalf of the mother of 10-year-old Isabella Zuggi and the mother of 14-year-old Sydney Figueroa.

Both mothers contend the HPV vaccine caused serious autoimmune and neurological dysfunction, ultimately resulting in the deaths of their daughters, according to a press release.

Isabella Zuggi was 10 years old when she received her first and only Gardasil injection on Aug. 26, 2022.

According to a complaint filed in the U.S. District Court for the Western District of North Carolina, Isabella was a happy, healthy girl with no major health issues before she got the Gardasil vaccine. She loved reading, especially the Harry Potter series.

Two weeks after the shot, Isabella developed headaches, lethargy, stomach pains, body aches and intermittent fevers. Doctors diagnosed her with myelin oligodendrocyte glycoprotein (MOG) antibodies.

MOG antibody disorders are acute, inflammatory, demyelinating diseases of the central nervous system.

According to the complaint, MOG antibody-related autoimmunity has been reported after several vaccines, including Gardasil. According to studies, Gardasil is "among the most commonly reported vaccinations linked to central nervous system demyelination."

Isabella died Nov. 5, 2022. The cause of death was listed as acute encephalitis associated with anti-MOG antibody production. Research has repeatedly linked acute disseminated encephalomyelitis with the HPV vaccine.

Isabella's mother, Kristine, said that if she knew that Gardasil could hurt her child, she never would have consented for Isabella to receive the vaccine.

"My daughter could light up a room with her wonderful sense of humor and her loving, creative spirit," said Kristine. "But that light started to dim from the moment she received the Gardasil injection."

She added:

> "No one told me that the pain and suffering Izzy endured before she died was possible. But I am here to tell you that it is possible, and it's shameful that a mother who lost her daughter has to warn people about the dangers of this vaccine, while the company that makes it is trying to keep those dangers a secret."

"The Wuhan Cover-Up" by Robert F. Kennedy Jr.
ORDER NOW

'Gardasil destroyed my daughter's life'

Sydney Figueroa received two Gardasil shots, the first at age 11 and the second at 12. Before the vaccine, she excelled academically and athletically. She participated in soccer, track and field, and played in her school's band.

After Gardasil, Sydney experienced multiple debilitating side effects, including headaches, brain fog, rapid heart rate, excruciating nerve pain and an inability to swallow, which ultimately required a feeding tube.

Sydney was confined to a wheelchair and required full-time care. Doctors diagnosed her with postural orthostatic tachycardia syndrome (POTS), Tourette syndrome and functional neurological disorder.

Sydney died on June 2, 2021, at the age of 14, from a pulmonary embolism directly attributable to prolonged immobility related to her autoimmune diseases, which were triggered by Gardasil.

A lawsuit filed on her behalf alleges that Julie Gerberding, then the director of the Centers for Disease Control and Prevention (CDC), "obligingly ushered the Gardasil vaccine through CDC's regulatory process, manifestly ignoring clear evidence that Gardasil's efficacy was unproven and that the vaccine was potentially dangerous."

"Gardasil destroyed my daughter's life," said Lynne Guzman, Sydney's mother. "She fought for as long as she could but the injuries she suffered, ultimately, killed her. If I knew what I know now, I never would have let Sydney get the shots."

Isabella's and Sydney's cases will become part of the Gardasil multidistrict litigation, where over 150 similar cases are pending.

"The senseless deaths of these two beautiful young girls bring home the seriousness of the allegations against Merck in these cases — that the company has exaggerated the benefits of Gardasil as cancer preventative and ignored the risks, including death — all for the sake of the company's bottom line," said Wisner Baum attorney, Monique Alarcon.

If you or your child suffered harm after receiving the Gardasil HPV vaccine, you may have a legal claim. Visit Wisner Baum for a free case evaluation.

This is just a result of 'evil' perpetrated on society by pharmaceutical marketing. Doctors do not have in-depth training on vaccines, and what they do have comes from pharma itself. Blind trust in doctors and shots is playing Russian roulette with your kids' health. Parents need to become discriminating on the issue of vaccines, and research on sites that do not have conflicts of interest, research the doctors who speak out, ask why would a doctor speak out and risk his license? Consider their concerns, hesitate, pause, reflect, educate until you have a more balanced viewpoint. We should do that with everything, also in politics, is their truth in the other's position, what am I missing if anything? I recommend CHD to so many people because I know it is easy access to finding information that is not easily found on the net. When I meet a mother with a young child, I say check out CHD before you make your vaccine decisions, forearmed with knowledge is forewarned, saving lives. I even open it on my phone, so they become familiar with the logo. The media is corrupt and complicit in these deaths by not reporting on the dangers. Reading Dr. David Gorski's articles is upsetting as he has contempt for the vaccine-risk aware, pegging them with the pejorative label anti-vaxxer. He goes point by point through vaccine concerns, disputing them, and gives no back up studies on vaccine safety, just makes blanket statements like of course they have been studied for years, and are safe that type of BS when we know it simply isn't true.

No more vaccines ever! If we learned anything from the "covid" scamdemic, it's that vaccines are harmful and potentially deadly. When will parents get it? Vaccines and Big Pharma drugs are poison!

Truly Heartbreaking. Parents are NOT given FULL disclosure on vaccines (or pharmaceuticals for that matter) - this should be the FIRST order of parents to their doctors, just like the Hipaa compliance! And it should be explained to them in terms which are understandable.

However due to the toxicity and side effects of most pharmaceuticals (if not all), I would think most parents would not allow their children to receive them after hearing about the risks. And THAT is precisely why they want to keep you uninformed!

Parents must learn to do their own research and take control of theirs and their children's OWN HEALTH.

Any shot with polysorbate 80 which lets things go into the brain may hurt/kill. Cell lines and hidden ingredients maybe in the shots.

The HPV has been known to cause catastrophic health events for many years...and it is still being permitted to be marketed. Says a lot about the integrity of the FDA and a government which allow this carnage to continue. When the word Medical has the word industry attached...money speaks louder than words.

And my primary care provider wonders why I won't take even a flu shot. I'll take my chances. I'm 67, male and take no medications other than the food that I eat and various supplements.
What happened to those young girls is a crime. I hope the families get some kind of justice, but nothing will bring their daughters back. I do not trust the medical establishment anymore except for emergency treatment.
Big Pharma is an abomination. I really have a hard time believing that such sociopaths occupy the corporate boardrooms. Their daughters and granddaughters are not taking the RSV jab, guaranteed.

> I agree !!!!!!!!!!! There's plenty of information out there now about the dangers of vaccines. Why are people still blindly accepting the advice of their doctors? The parents were naive and their daughters died because of it. Stop putting doctors and Big Harma on a pedestal !!! They're dangerous to your health !

It's been know from the start of this vaccine of it's deadly results. You almost have to be on the internet, subscribe to a holistic doctor newsletter, or be a patient of a holistic doctor. The general public in the dark. Same with covid vaccine. I knew that was deadly within a few weeks of the roll out. Of course, pharma, covers the truth. It's a crime that people don't know about all this.

How is is better to disable or kill these girls in middle and high school than live with a small risk of them developing a highly curable cancer 30 or more years later?

My son's mother and I were no longer together when my son was born (and still are not). She went along with whatever the doctor ordered. However, since I was the one taking him to his appointments and he was on my health insurance, I got to decide what vaccines he got. Unfortunately, this still meant quite a few (due to school requirements) and thankfully he is 23 now and seems to have avoided any serious issues (aside from getting chicken pox from the chicken pox vaccine, which I was against but was required by the school district). The one I did have a choice on was Gardasil and I said no every time they asked, at every check up until he was 18. So he never got that one at least, despite the pressure from the pediatrician starting at age 10 or 11. I started reading Dr. Mercola's newsletter when my son was 4 or 5 years old, which opened my eyes to the issues with vaccines in general, and Gardasil in particular. I do wish I had been better informed before he was born, or at least before he got most of the shots between birth and 4 years old, but he was lucky and doesn't seem to have had any issues from them. Still, Gardasil was bad from the moment it was approved and I knew it, so at least I made sure he never got that or any flu shots.

These shots are so disgusting. HPV is an STD and they know that. But they would never tell little girls that and that to avoid it they must need to have no sexual contact with males. Once, cancers from HPV were rare, except for cervical cancer (for obvious reasons,) but now girls and women are getting these cancers at the backs of their throats and in their anuses (the cancer Farah Fawcett died from.) Would any girl agree to such humiliating sexual contact if they knew they could die from it, and that they would also have an incurable, transmittable STD?

> I am sure HPV is a result from being vaccinated because of all a sudden what the past two decades or so it appeared out of the blue just like AIDS did in the 80's & when you are aware AIDS came from vaccines, you can bet so did HPV, so IMO they are creating these so called sexually transmitted diseases that will in the end be sexually transmitted just like the CONVID jabs are causing issues via sexual contact. Evil geniuses they are at the expense of our health.

There's another way girls can keep from getting HPV - abstinence before marriage, and absolute fidelity with a faithful husband afterwards.

Works every time.

> Well, that is a sexist statement! It works both ways! My heart goes out to these two mothers & their families.
>
> And I am sure HPV is a result from being vaccinated. If HIV came from vaccines, you can bet so did HPV.
>
> I was mandated into a Hep A vaccine in Vegas back in 2004 when I was totally programmed. Within weeks I became suicidal. Within a year I was completely mentally disabled I am now aware suffering from jab induced heavy metal toxicity at 40 years old unable to work because I suffered from dementia like symptoms not to mention anxiety & rage. I also ended up with shingles from that vaccine. Shingles is part of the herpes family.
>
> I am also now aware my childhood strep, which is also part of the strep family, came from my childhood vaccines. I no longer suffer from strep throat, but I still have strep in my body. I am now trying to starve it out with the foods that feed it...wheat, dairy, & eggs.
>
> I had two root canals removed 2 years ago that disturbed the mercury in my mouth, which are also two corrupt procedures. The mercury resulted in a strep flair breaking out in cystic acne. I have found the Medical Medium's strep post is spot on. I should have a lawsuit against the state of Nevada but as we all know you cannot fight city hall. The corrupt win every time.

You are right on. I have training as a nurse, nurse practitioner, but am retired over 12 years. No one ever teaches about Sudden Infant Death Syndrome being the result of vaccines. They just say it was how you put the baby in the crib. No one tells you the long term effects of vaccines on our children.. Things like Type 1 Diabetes. My daughter has a friend from Mexico. She took her 6 month old child to the pediatrician for a regular check up. That 6 month old baby got 5 vaccines. No one knows the interactions. However your pediatrician will say only introduce one new food at a time to your baby to monitor for interactions!!

God gave us immune systems.
They are NOT required to be enhanced by "vaccines."
Eat well, exercise and live a Godly life, your immune system will take care of you.
The Amish get NO "vaccines."

Gotta quit ALL vaccines. There are likely therapeutics that can help anything these so-called "vaccines" are supposed to be preventing. The risks outweigh the supposed/alleged dubious benefits. Ivermectin, fenbendazole, hydroxychloroquine & such would likely take care of any of the childhood diseases kids get erroneously vaccinated against. And I believe polio came from the polio vaccine.

I personally developed a tremor in my right hand (the dominant hand), when I was in my 20's and after years I attributed it to a tetanus vaccination. Have to apply all the finer make-up (like eye makeup) w/left hand --applying make-up to my right eye w/my left hand is annoying. Sometimes I have a problem w/writing, embarrassing in front of others.

Has anybody noticed our pets are getting more autoimmune diseases as well as humans? They are actually getting a lot of human diseases such as diabetes, joint problems and cancer. Skin disorders, neurological disorders & problems that put them on a lifetime of prescription meds, just like humans. More big business for Big pHARMa. What's the common denominator? :0/

I keep getting stuck on the fact that NOT EVEN ONE so-called "virus" and this includes SARS-CoV-2, has EVER been purified or isolated and demonstrated to exist in Nature, just floating around waiting to infect you, by ANY lab ANYWHERE in the world. Viruses are created inside the body as a defense against something that's not right inside the body, like an acidic pH caused from eating man's garbage, so-called "food" or exposure to the EMFs of 3G, 4G and 5G radiation. Wuhan installed 30,000 5G transmitters and look what happened! California went full blown 5G and became a Covid hotspot.

If you want good health you must eat what God gives us in nature. Man's garbage, so-called "food" and exposure to the EM fields of 3G, 4G, 5G radiation causes the blood to become acidic, when an alkaline pH is natural and desirable. Imo Dr. Robert O. Young is the world authority regarding pH of the human body. His website is DrRobertYoung dot com. His website needs improvement, but all of his research is there. Needless to say I'll never willingly accept ANY vaccine.

Look on the Merck website for the Elkton, VA, plant and their huge expansion plans being driven by this vaccine. Back when Tim Kaine was our governor, he was courting this company to set up shop in VA. As soon as this vaccine became available, he tried to make it mandatory for all young ladies in Virginia 14 and over as part of the school-required vaccine schedule (around the year 2006-7). That would have included my oldest daughter. In my gut I knew this was a farce and said they would have to kick my daughter out of school before I got her that vaccine. Prior to that
I had blindly followed school vaccine requirements and our pediatricians' recommendations. Thankfully, I followed my gut and the school requirement suggestion quickly faded. I now tell our pediatrician to pound sand when this vaccine is strongly suggested.

It makes me wonder about various states, their vaccine requirements, and which pharmaceutical companies are operating within their borders. Follow the money- this has never been about our children's health.

Please explain to us why medical doctors - who can be held professionally responsible for prescribing to an individual patient opioid drugs that they darn well know are often lethal - are not required to take ANY professional responsibility for administering a childhood STD vaccine that they darn well could have and should have known was sometimes lethal (let alone ineffective for purposes claimed and logically inappropriate for kids) - but they can lose their license to practise medicine for becoming informed about the risk and lack of benefit of a vaccine and advising against it for an individual patient?

During the Spanish Flu researchers tried everything they could think of to infect healthy people. They took nasal and oral samples from sick people and swabbed them into the eyes, ears, noses and mouths of healthy people in order to make them sick. NOT EVEN ONE person got sick.

The idea that a jab is needed implies that there is a virus out there floating around waiting to infect you, right? Is it not a fact that NOT EVEN ONE so-called "virus" has ever been isolated or purified using Koch's or River's postulates, by ANY LAB anywhere in the world? You can go to CDC dot gov and search "symptoms of Covid-19". What pops up is an EXACT description of the common flu. Common flu was labelled a deadly virus and used as an excuse to lock down society, start a fear mongering campaign and to inject people with a deadly potion as a way to reduce world population. The mRNA jab destroys the immune system, causing HIV, which is always fatal and takes years to kill. Tricky! According to the NYT 72% of the world's population is jabbed.
I read somewhere that 1 in 5 jabs were placebos. Don't remember where.

The HPV shot is mandated for middle school and high school attendance in Hawaii (a crime!). New York and California keep trying to pass the same. Thankfully it's still optional in most states but if we are not vigilant, this may not remain the case. Let's all fight to make every "medical" intervention optional. No mandates for anyone for any reason!!
